

RisePorto300™

SystemRoMedic™

SWL
140 kg
300 lbs

Safe and flexible lifting solutions for all settings and situations

RisePorto300 is a portable ceiling lift unit featuring unusually small measurements and extremely low weight. At the same time, it is both strong and safe, providing secure, comfortable and individually adapted lifting solutions for all situations and for users weighing up to 140 kg/300 lbs. RisePorto300 can be used on all rail systems, for all settings and in all types of rooms. The lift unit can easily be moved between different rail systems and rooms. This provides a high degree of utilization which, in turn, prevents manual lifting and work-related injuries and accidents. RisePorto300 is a modern and stylish ceiling lift unit offering safe and flexible lifting solutions characterized by performance, simplicity and comfort. It also contributes to the creation of professional and highly functional care environments with a harmonic and human atmosphere.

SystemRoMedic™ is a complete solution for easy transfers. The concept encompasses four product areas that meet most needs in different transfer situations.

Transfer, between two locations. **Positioning**, within the same location.

Support, for mobility. **Lifting**, both manual and mechanical.
