

LowBackSling

SystemRoMedic™

Trial Fitting Protocol

Patient's name: _____

Social insurance number: _____

LowBackSling is easy for the caregiver to apply and it gives the patient a feeling of security. It features leg sections, which means that the patient does not sit on the sling. Instead, the sling provides support from the tailbone up under the arms and under the legs. LowbackSling is designed for use when the patient has upperbody control, etc.

Functional inspection

Visual and mechanical inspection

Check the condition and function of the sling regularly. Always inspect the product after laundering. Check to ensure that seams and material are free from damage. Check to ensure that fabric is not worn or faded. Apply load to the device and check to ensure that clasps, handles, etc. withstand heavy load. If there are signs of wear, the product must be discarded.

Which size is used?

XX-Small X-Small Small Medium Large X-Large XX-Large
