

# RiseAtlas625T<sup>™</sup> with SmartPark-function

SystemRoMedic<sup>™</sup>

## Special version with SmartPark-function – for patients weighing up to 285 kg/625 lbs

- SWL 285 kg/625 lbs
- Transfer motor for powered transfer in rail
- Special version for use in rail systems with end point charging
- Modern, elegant and hygienic design
- Unusually small measurements and extremely low weight
- For all rail systems, in all settings and in all types of rooms
- Large lifting area and possibility of both very low and very high lifting
- In all situations and for all patient needs
- Very easy to use, providing safe working conditions and allowing the caregiver to remain close to the patient throughout the entire lifting procedure
- Moves silently and gently, soft start and stop
- Ergonomic and easy-to-use hand control
- On/Off-button on the hand control prevents unauthorized use of lift functions
- Manual emergency stop
- Electrical and manual emergency lowering
- Overload protection
- Over speed protection
- Slack strap switch
- Night light
- Efficient strap control preventing accidental twisting of the lift strap
- High capacity, environmentally friendly NiMH battery
- Unique charging solution, with one trolley for two charging options (in-rail/end point charging)
- RiseAtlas625T, with SmartPark-function is, as standard, preset to function with end point charging
- Discreet information panel
- Easy to service
- Diagnostics, a special software available as an accessory allows a PC to access further information about the ceiling lift unit
- Many accessories for safe, easy and individually adapted lifting of patients in most transfer situations

# RiseAtlas625T™ with SmartPark-function

SystemRoMedic™ is a complete solution for easy transfers. The concept encompasses four product areas that meet most needs in different transfer situations.

**Transfer**, between two locations. **Positioning**, within the same location.

**Support**, for mobility. **Lifting**, both manual and mechanical.
